

From Product Leader to Service Leader

BorgWarner Turbo Systems is **worldwide product leader** in the field of pioneering exhaust gas turbochargers. Innovative and reliable products have made us a leading supplier in the automotive industry.

Yet we also strive to be a **service leader** and become the partner of choice for our customers and partners in the spare parts business. This is why we now offer you even better aftermarket services, which make getting hold of and fitting the right spare parts **faster, easier and more secure – something which is sure to offer you a decisive competitive advantage.**

Our Turbo Service speeds up Pit Stops

Uncompromising Quality

The world's largest vehicle makers rely on the products made by BorgWarner Turbo Systems. Our turbochargers are manufactured in line with stringent, globally acknowledged quality standards and meet the highest expectations.

Our products not only prove their above-average performance, reliability and long service life in the tough tests performed by the automotive industry, but also every day on streets across the globe. You can find these resilient qualities both in our **OEM products** and in all **original spare parts and Reman turbochargers**.

A Better Service

Time is money – and this is crucial for companies that depend on 100% availability of their vehicles and machines. Our highly efficient logistics concept reduces response and delivery times to an absolute minimum, thereby helping you find the parts you need and get back on track as fast as possible.

Our comprehensive network has **more than 400 service centers** with **professionally trained staff** that use **state-of-the-art equipment** to offer you an all-in aftermarket service.

400 First-Class Addresses

Find out more on the Internet or go along to one of our **service centers**. Our comprehensive know-how, new logistics concept and pioneering communication solutions ensure that your dealer has the spare parts you need fast.

Faster Communication Channels

Our **interactive communication service** ensures that our service partners can always access our complete product range quickly and easily – with **24 hour delivery anywhere in the world**.

The key to this are our homepage with online ordering for our distributors and the spare parts catalog on CD-ROM.
