GTA45 Replacement Turbos

for Detroit Diesel Series 60 engines

BorgWarner GTA45 Replacement Turbos

A Sign of Reliability

Features & Benefits

■ Forged Milled Wheel (FMW) Technology

Incorporates improvements through superior material properties of the compressor wheel forging. This innovative process helps resist compressor wheel failure and decreases costly equipment downtime.

■ Product Service Commitment

Solid support starts with firm manufacturer-to-distributor relationships and translates into exceptional service quality and technical support.

■ Strong Warranty

All BorgWarner Turbo Systems aftermarket units are covered by a 12 month, 100,000 mile service or replace warranty.
